APPROVE RENEWAL LIGHT CONTRACT

FOR ILLUMINATING THE STREETS OF MARYVILLE.

BY ELECTRIC POWER CO.

Democrat-Forum Secures Opinions of Business Men in Regard to the Proposition.

Business men, educators, lawyers, bankers and doctors of the city appear to be in favor of renewing the street lighting contract with the Maryville Electric Light and Power Co.

The Democrat-Forum has secured the opinions of several business men of the city on the proposition, which will come up for the approval of the voters on October 23. In interviewing the persons the question was asked: "Are you in favor of renewing the contract with the Maryville Electric Light and Power Co. to furnish street lighting for the city of Maryville?" The following answers were received:

H. L. Haines—"Sure, I am in favor of renewing the contract. By all means, let's make Maryville the best lighted town in Missouri. We have a beautiful city and it would not do at all for the contract not to carry. We want to let our light shine."

E. W. Keck—"Certainly. We must renew the contract at the election next Tuesday. We have an elegant lighted city and I'm in favor of letting the good work go on."

J. F. Hull—"I very respectfully refer you to the editorial on this subject printed in yesterday's Maryville Tribune."

A. K. Frank—"Yes, I am in favor of this contract."

Fred R. Wolfers: "I am informed that this is just a renewal of the contract entered into five years ago. I recall details of the contract then were thoroughly investigated at the time it was made and determined to be fair. Conditions since then have not materially changed and I see no reason why the contract should not be renewed."

C. W. Yehle: "Yest, that is all there is to say about it."

M. G. Tate: "Yes, I am in favor of the light. It will not do to go behind."

Leslie G. Somerville, county superintendent of schools: "I see no reason why we should not support the proposition."

Dr. D. J. Thomas: "I favor, unequivocally, the renewal of the contract with the Maryville Electric Light and Power Company. It has been my observation that this company has been 100 per cent efficient under the capable management of Mr. Hellmers and, in my opinion, the city should return a unanimous vote for lights.

"We are fortunate to have men in our midst of the type of C. C. Hellmers and fortunate to have the excellent light plant which Mr. Hellmers has been so largely instrumental in building up for us. I can think of no better lighting system anywhere in a town of similar size, and the cost is apparently reasonable."

Charles E. Stilwell, attorney—"I am in favor of voting bonds for the support of the present street lighting system provided the city officials have investigated the matter so that they know the rates given for lights are right and that we are not paying more than the amount due the Light Company for the service."

Report Gives New Hope to Farmers in Kansas

Price Of Corn Will More Than Offset Low Returns For 1923 Wheat Crop Agriculture Bord Says

Topeka, Kan., Oct. 19—Encouragement to Kansas farmers was contained in the optimistic tone of the twenty-third biennial report of the Kansas State Board of Agriculture today.

A comparison of prices, the report said, indicated that the depression in the agricultural industry is "apparently passed."

While the average price for wheat received by Kansas farmers this year is around 90 cents a bushel and does not compare favorably with the price received in 1921, the average price received by the farmers for corn this year was about 60 cents a bushel—more than double the average in 1921.

The report said further that Kansas has a bumper corn crop this year which indicate the farmers are receiving a fair return for their crops which will offset the crises caused by the low wheat receipts,

DELEGATIONS COME IN TO TABERNACLE

IN SPITE OF HEAVY RAINS, ATTENDANCE HAS BEEN GOOD

BEGINS AT 7:30 O'CLOCK

Will Be No Meetings At Tabernacle On Monday Evenings—More Chairs To Be Here

The condition of the roads have hindered the delegations coming into the tabernacle meetings as scheduled, but in spite of that, the attendance has been good and the interest is growing rapidly. Last night delefations were present from Hopkins, Pickering, Burlington Junction, Wilcox and one car load came from Craig, Mo. for the service.

With the weather fair, the workers are confident that the churches of the county will attend the meetings in large numbers next week. Delegations are expected tonight from Skidmore, Palestine, Graham, Bethany and Salem churches. Seats are reserved for these special groups and as the meeting continues considerable rivalry will develop between them.

The Evangelistic party and pastors of the county will hold special services in several of the churches of the county on next Monday night. The program arranged is as follows; Hamilton and Hamilton will preach at Graham. L. C. Montgomery will go to Arkoe. C. A. Knouse of Pickering and Richard Stewart will speak at Bedison. E. F. Hagee of Skidmore will preach at Elmo. E. P. Taggart of Burlington Junction will be at Skidmore. R. L. McCanon of Hopkins will be at Clearmont. R. E. Snodgrass of Maryville will preach at Guilford. All church people and others are urged to attend the service closest to them.

The Hamilton Evangelists will address a big afternoon meeting Sunday at Burlington Junction. L. C. Montgomery will preach at Hopkins, Sunday afternoon, and Rev. R. E. Snodgrass will be at Barnard at the same time.

The services at the tabernacle begin promptly each evening at 7:30 o'clock. There are to be no meetings at the tabernacle on Monday evenings. Eight hundred more chairs are enroute from Kansas City for use in the tabernacle and these will provide comfortable seats for two thousand. Saw dust will be hauled and the last details of the housing will be completed by Sunday.

MARYVILLE D. A. R. NOW IN 11TH YEAR

OPENS NEW YEAR WITH LECTURE RECITAL AT COLLEGE

MUSIC FACULTY IN CHARGE

150 Members and Guests Were Present—Charles R. Gardner Tells of Folk Song.

The Maryville Chapter, Daughters of the American Revolution, opened the eleventh year of its activities with a delightful lecture recital yesterday afternoon in the auditorium of the State Teachers College. There were 150 members and guests present. The program was presented by the faculty of the Conservatory of Music. Charles R. Gardner, director of music, lectured on "Vocal Forms," and solos illustrating each of the six forms were sung by Miss Ann Leonard and Luther A. Richman of the voice department, accompanied by T. H. Annett of the piano department.

The program opened with a delineation of the folk song by Mr. Gardner. This, the simplest form of music, is a song originating and traditional among the common people of a country and embodies characteristic qualities of form and feeling. The three-part form consists of a period, a second period and a return of the first period after the second. The negro melodies, sometimes referred to as "the wild flowers of music," are American folk songs. In illustration of this form, Mr. Richman sang the English folk song, "Drink to Me Only With Thine Eyes."

Mr. Gardner next told of the ballad, which Longfellow says "Is theGypsy Child of Music." This form is a popular kind of short narrative poem, adapted for singing. Miss Ann Leonard, lyric soprano, sang "Phyllis Has Such Charming Graces," to illustrate this group. Miss Leonard made an excellent impression at her initial appearance in recital, both her voice and her singing proving her a distinct acquisition to the music circles of Maryville.

The lieder, a German lyric or lay displaying a mood or picture with words and music in perfect accord, was the third form explained by Mr. Gardner. This class included Schubert's "Faith in Spring," sung by Mr. Richman. Art songs, next described by Mr. Gardner, are in general contrast to folk songs and are the known work of individual composers. Miss Leonard sang "Robin, Robin Sing Me a Song," by Spross and the accompaniment by Mr. Annett was given with the brilliancy the composition demanded.

The oratorio was the fifth vocal form discussed. This form is a more or less dramatic text or poem, usually founded on some Scripture theme, set to music, in recitative, arias, choruses, etc., with an orchestra accompaniment, but without action, scenery or costume. "The Messiah," written by Handel in 1600, is considered as the greatest oratorio, and Mendelssohn's "Elijah" is perhaps the most popular one. In connection with this form Miss Leonard and Mr. Richman sang the duet, "What I Have to do With Thee, O Man of God," from the oratorio, "Elijah."

The concluding form was the opera, a form of drama in which vocal and instrumental music are essential and predominant. The aria is replete with ornaments and difficulties for showing off the singer's skill. Miss Leonard sang in French the aria "O Don Fatale" from the opera "Don Carlos," by Verdi.

At the close of the program the members and guests attended the informal reception given by Miss Olive DeLuce and Miss Carrie E. Hopkins, art instructors, on the fourth floor of the College building. The affair was held in connection with the art department's exhibit of the Medici prints.

Preceding the program in the auditorium a business meeting of the chapter was held. Mrs. W. J. Montgomery was elected vice regent to fill the vacancy left by Mrs. Henry A. Foster's resignation. The chapter voted to send a Christmas gift to Suzanne Colomer of Deauville, France a French orphan adopted by the Maryville chapter during the world war. Five resident and three non-resident members were elected to membership. They are Mrs. L. L. St. Clair, Miss Grace M. Shepherd, Miss Margaret Louise Hosmer, Miss Louise Peery, and Mrs. Lloyd Heifner of Maryville, and Mrs. Nettie Allyn Dowell, Miss Anna Dowell and Mrs. Ethel Dowell Lucas, all of Bedford, Ia.

KIRKSVILLE 7; BEAR CATS 6; FIRST HALF

At the end of the second quarter, the Maryville Bear Cats were following close on the heels of the Kirksville Bull Dogs.

The score was Maryville 6; Kirksville 7.

When Maryville received the Bull Dog punt, they made use of straight foot ball tacties and pounded the Kirksville line for appreciable gains. Foreman, Wilson, O'Banion and Masters hit the line for a series of gains that brought the ball to within scoring distance. Finally, Foreman lugged the oval over for the first Maryville counter. O'Banion failed to kick goal.

At the end of the first quarter, the sorce of the Kirksville-Maryville game was 7 to 0. Maryville started the game by kicking off to Kirksville Bull Dogs and the ball was received on the thirty-yard line and advanced by the Bull Dogs ten yards. Wilson with perfect interference gained twelve yards around end. On thirty-five punt to Kirksville, the Bull Dogs fumbled and Maryville gained the ball. Wilson gained nine yards around end; Maryville steadily advanced the ball towards the goal, and then Maryville fumbled to Kirksville on a cross buck and spoiled a chance for a touchdown.

Kirksville plunged over Maryville line to within striking distance of goal line, but lost ball by half a yard on downs; Maryville punted to safety; Kirksville worked ball back and fullback attempted pass over goal line on last down but Wilson knocked the ball down. Wilson on right end run gained 12 yards; Wilson broke around the right end again for 20 yards. Alexander, secretary of the Kansas City College of Medicine. All three of these physicians are at liberty on bonds, following their arrest.

Sachs estimated that from 1000 to 1500 men and women are practicing medicine throughout the United States on credentials obtained by fraud. He said that between 1000 and 1500 fake diplomas had been sold.

St. Louis, Oct. 19—In a copyright interview here today, the St. Louis Star announced that W. P. Sachs, former state examiner of public schools in Missouri, confessed today to the nation-wide traffic in high school graduation certificates and medical university diplomas, and agreed to name more than 100 fake doctors practicing medicine in all sections of the United States.

Chicago, Oct. 19—Following the uncovering in St. Louis of a nation-wide plot by which proletariats were able to buy doctor's and surgeon's degrees and practice without knowledge of medicine and surgery, subpoenas was issued today by the state attorney's office here for three persons said to be implicated in the plot.

These persons' names were found in letters siezed in the headquarters of the alleged medical ring in St. Louis. DRYS WIN VICTORY AMONG GOVERNORS

EXECUTIVE PLEDGE SUPPORT IN DRY LAW INFORCEMENT

TWO LEAD OPPONENTS

Parker Of Louisiana and Blaine Of Wisconsin Assail Sweet's "Eighteenth Amendment" Resolution

West Baden, Ind., Oct. 19.—Governor John M. Parker of Louisiana resigned today from the governors' conference when that body, by an overwhelming vote, adopted a resolution, sponsored by Governor Sweet, of Colorado pledging the state's aid to President Coolidge in the enforcement of the prohibition law.

Parker's act was the final thud in the noisy session today that was marked by frequent disorders.

The Louisiana governor, who came into prominence, through his fight on the Ku Klux Klan, denounced the Sweet measure.

When the Colorado governor announced to the session that his measure was ready, Parker sprang to his feet and declared that he would resign from the conference if the resolution was adopted.

West Baden, Ind., Oct. 19—Sweeping over the so-called wet faction, drys won a smashing victory at the concluding session of the governors' conference here today.

Following a stormy session behind closed doors, virtually all of the state executives agreed to sign the resolution circulated by Governor Sweet of Colorado, pledging full support of the conference to President Coolidge to uphold the prohibition law.

The triumph of the drys, however, was secured only after bitter assaults upon the resolution by Governors Parker of Louisiana and Blaine of Wisconsin. Through the efforts of these two state executives, Sweet was forced to eliminate that portion of the resolution which declared that the conference endorsed the Eighteenth Amendment.

As the resolution now stands, it is restricted solely to an expression that the governors are ready to throw complete co-operation of their state agencies to maintaining the integrity of the Constitution, particularly prohibition, narcotic and immigration laws, which are the basis of the discussion to be held at the White House conference tomorrow afternoon.

LARGEST CIRCULATION IN NODAWAY COUNTY

GRINDING OUT DIPLOMAS.

There has been no more shameful fraud reported on an unsuspecting public than the alleged "diploma mill" through which men have secured diplomas to practice medicine without study and without qualification. There is no more worthy and no more useful profession than that of medicine. It holds within its confines many men of high purpose and noble impulse but, with all the legislative and ethical protection thrown around it, a certain per cent of quacks, fee grabbers and charlatans have managed to slip in.

The doctor ushers us into the world and he it is who ministers to us last when the light of life fades from our eyes as we cross over into that bourne that has no earthy ills. When disease disheartens and pain palsies both flesh and mind, it is the doctor to whom we turn with confidence to restore us to our normal selves. It is necessarily one of the most sacred and respected of professions and the public therefore has a right to know who its doctor is. Both the state and the profession recognize this and provide that he must have a diploma and a license declaring him qualified to practice and worthy of confidence.

However much a man may essay to disbelieve in the merits of medicine or any of the worthy arts of healing or restoration, he turns to some of them with a blind trust and hopefulness when sick. And there can be no more dangerous imposition than the quack who takes the money of trusting helplessness, and prescribes, without knowledge of cause or effect. The honest man realizes the weight of his responsibility: he recognizes the gravity of his undertaking and through long years of study and preparation he carefully and slowly prepares himself for his life's work. He attends his patients faithfully and exercises every resource of knowledge and common sense but the quack knows nothing, cares nothing but for the easy gold that may cross his palm.

It doesn't seem possible with all the safeguards thrown about the time honored practice of medicine, both by the profession and by the law, that it would be possible to grind out diplomas that would enable men to practice without preparation or study but such is the charge made by two newspapers of this state. It is claimed that for a mere monetary consideration men have secured not only medical diplomas but school certificates who haven't even a high school education. The charge calls for a most searching investigation and a vigorous prosecution if it is found to be true. No punishment can be too severe for the scoundrel who promotes a fraud like that upon a confiding public. Not only the public should have adequate protection but all reputable doctors should have it from those who would bring disgrace and distrust upon their calling. If the laws are adequate, they should be invoked. If they are not, they should be amended.

The way to get somewhere is to start somewhere. A lot of people seem to overlook the little matter of starting and then wonder why they don't progress.

Some one calls for a book on road etiquette. The rules of road etiquette are pretty generally understood now and what is needed is some one to observe them.

It was Demosthenes who said, "small opportunities are often the beginning of great enterprises." It doesn't pay to pass up the little opportunities waiting for big ones. The little ones are more plentiful and often grow while the big ones are hard to find and full grown.

Miss Iva Hartness, teacher.

During September of this year the United States sold to Europe more goods than in September of last year by sixty-four million dollars and our imports were forty-three millions less. This shows prosperity for the United States, if those foreign countries can get the money to pay for the exports, but it doesn't show that Europe is getting on her feet to any extent and, unless she can produce and sell goods, how is she ever to pay her debts? Also, so long as our imports are vastly larger than imports, what is the need of a tremendously high tariff to keep out the goods Europe is not making and to enable American manufacturers to charge exorbitant prices? The question answers itself. The only need is to make possible that very thing.

A few years ago Germany was one of the most frugal and prosperous nations on earth. When the mark had a real value, all wage earners were wont to save and accumulate but now, with the value of the mark reduced to practically nothing, the tendency is to get rid of it as quickly as possible and to get something that has a value. German farmers even bought all kinds of useless and unnecessary machinery rather than keep their money. What is true of Germany is more or less true of France, Italy and Austria. They are all straining under a tremendous debt and this debt is constantly on the increase. If some way is not devised to stop the increase of the public debt and get these nations on a paying basis, the whole of Europe will be thrown into panic and repudiation. England realizes this very thing. Germany is as helpless as a fish in the Sahara desert and the others are drifting complacently toward the falls.

Better In Every Way!

We know that the Firestone Truck Type Cord Tires are better in every way. Watching this big tire perform on our customers' trucks has convinced us.

It is gum-dipped — an exclusive Firestone feature. This process puts a rubber coating around each cord, thereby reducing friction. That means more mileage, and the more mileage you get, the lower the cost.

The broad, beveled tread gives the truck a better hold on the road. There is less slipping, and the truck's power is not wasted.

We can show you in mileage records of users why we say this is a better tire in every way. Come in and talk over with us your tire problems. You'll find it well worth while to know about the features of the Firestone Truck Type Cord.

Church Notes

The meetings were held throughout the week without a break except Friday evening when the rain made it necessary to omit the service. There were conversions Tuesday, Wednesday and Thursday evenings, a total of eight in all. Good congregations were present both morning and evening services Sunday. The pastor has announced that Rev. Monday he went to St. Joseph to take part in a stock judging contest there in connection with an exhibit of baby beeves.

A team of three boys from Ward Two, Pioneer, won third place in general judging at the Ravenwood school fair. They judged corn, vegetables and stock. They were at a disadvantage compared to some of the other teams as they had but a short time to study the exhibits. Roe Miller, Wayne Kessler and Laurel Lee King composed the team. Prof. L. L. King coached them.

The smart air ---- it's in the cut

Because of their cut, Society Brand and Stein-Bloch Clothes always have that air of distinction that's the most important thing about a suit. The Cambride single-breasted sack is a loose, broad-shouldered, straight line coat. The Yorkshire—tremendously popular also—is semi-fitted and double breasted. Both are smart; they're correctly cut.

"King Corn" was made last winter during the corn show which took place at the Farmers Trust Co. Kinnaird wrote the scenario and the art titles for the film and the picture itself was taken by F. R. Marcell.

Federal Farm Loans

In the past money has been loaned to the farmer from the viewpoint of the lender only. In the future, farming will be financed largely from the viewpoint of the borrower and aid him in developing agriculture. Under the Federal Farm Loan Plan, compound interest plays an important part in its silent workings in favor of the borrower and helps him cancel the debt, as small semi-annual payments gradually reduce the loan and wipe out principal and interest entirely.

Says a County Officer Should Resign

We do not wish to be a crank or kicker, but we do believe in something like purity in politics at home as well as elsewhere and when one of our main officers of the county, one that is to maintain law and order, comes to a community on official business, in the condition he was in here in Clearmont last Saturday night, we think it is high time something was done to remedy it. We would suggest that he be asked to resign the office, and if he refuses to do so, that legal steps be taken to clean house.—Clearmont News.

The foregoing from the Clearmont News is strongly endorsed around Elmo. He should do better or quit.

A number of years ago an official of the county was brought to trial before the county court for the same offence.—Elmo Register.

Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

Firm, Plump

Flesh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed, healthy girl no matter where she may be—on the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so firm and plump—the girl with radiantly red cheeks, cheeks that carry a touch of roses from nature's own garden——the girl with the sparkling eyes, keen and sharp—the girl with buoyancy and the swing of youth.

Not necessarily an out-of-doors girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth.

S. S. S., since 1826, has stood for increased blood cells. S. S. S. means restored strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that flabby, ill nourished flesh fade away before flesh that is firm and plump. Red blood cells will do it and S. S. S. will build them. It contains only pure vegetable ingredients. S. S. S. is sold at all good drug stores. The large size bottle is more economical.

Sen. King Warns of Spread of Sovietism

Says That Soviet Russian Troops are Ready to Invade Germany on Moment's Notice.

Washington, Oct. 19.—Massed along the Polish border, a vast army of soviet Russian troops is held in readiness to invade Germany at any moment in support of a communist revolution, Senator W. H. King of Utah declared today in warning against a threatened spread of sovietism throughout Europe.

Russian forces, estimated from 50,000 to 150,000, will "smash a bridge across Poland as soon as Russia has givn the signal in Germany for a Red revolution," King added. He said that a soviet Germany was not at all improbable and only a miracle could prevent it. The miracle would be a settlement of the Franco-German reparation problem.

King urged the American government to summon an international conference of Allied nations to make a fair and just settlement of the reparations issue.

These were the outstanding impressions named by the Senator in a 17,000 mile tour of Europe from which he has just returned to the capitol.
